

**Remarks**

In the restriction requirement, the Examiner identified two inventions as follows:

- I. Claims 1-19, drawn to a method of using a resource constrained,
- II. Claims 20-60, drawn to a resource constrained device.

The Examiner further required election of one of these inventions. Applicants make an election of Group I (Claims 1-19) without traverse.

Furthermore, Applicants add new claims 61-79. These claims are closely modeled after Claims 1-19. They are supported by the original claims and specification. Accordingly, no new matter has been added.

The Examiner is invited to contact the undersigned with any issues that may advance prosecution of the application on the merits.
